Grace Alles Cabin
Daily Opening and Closing Check List

___Arrive 15 -30 minutes before the Alles Cabin is scheduled to be open.
___Open the cabin using combination provided by NPS staff.
___Sweep the cabin porch and rock "stepping stone" using broom/s stored in the closet just inside the cabin door (This both because Grace kept her porch clean and for safety to remove at tripping or rolling hazards.)
___Move the 4x4 table out on to the porch. (This is most easily done by lifting the table or tipping the table on its side and place two legs out the door and then swinging the rest of the table outside.) Be careful that the drawer does not fall out.
___Move the framed photographs and certificates from the kitchen table and hang them on the wall if the weather allows.
___Place copies of newspaper articles, photos, guest book on 4x4 table.
___Place old magazines on the table inside.
___Hang kitchen towels on dowels by cupboard.
___Place pillows on green straight chair.
___Move California Cooler from behind the door and place on porch near the cabin door. (The cooler is easier to move in two pieces and should have a burlap sack in the water tank on top.)
___Move rocking chair out to the porch for your use (between visitors).

___Move signs out of the cabin. (The signs maybe heavy and awkward. If you need assistance please make arrangements with the NPS Interpreter.). Place "Historidc Alles Cabin Open" sign on the downhill side of the road, making sure arrow faces cabin. Place "Historic cabin parking 200 ft." sign on uphill side across the street about 100 yards up the road.
___Smile

If it is raining, snowing, or very windy the cabin maybe opened by just sweeping the porch, putting out the signs, and smiling.

Closing
___Quit Smiling
___Reverse order of opening
___Close any open windows
___Close the curtains
___Lock door
